

**ARMOR
ANDRÉ**

High Volume Specialty Washers

For high volume specialty washers, Armor André is equipped to meet your engineering specifications efficiently and economically. Our full service tooling department can provide the engineering design and tooling pertinent to your production needs.

We produce custom components in a wide range of materials including:

- High and low carbon steel
- Stainless steel
- Aluminum
- Copper
- Brass
- Other customer specified materials

Armor André is a fully integrated company with the ability to slit steel coils up to 1/2" thick providing quick turn-around time on customer orders.

We utilize SPC throughout our manufacturing process, providing the highest quality standards for all products. We can implement a complete quality program to meet automotive specifications, and accommodate all automotive quality requirements with documentation. Plus, our system allows for the traceability of materials throughout the manufacturing process. Every box of parts can be traced back throughout all processes to the raw materials. Complete material, heat treat, and plating certificates are also available.

Our washer capabilities include:

- *Flat Washers*
- *Belleville Washers*
- *Through Hardened Washers*

We are committed to producing high volume washers and metal stampings that meet the toughest industry standards.
